27% of Saudis in 'Bombshell' Study Experienced Heart Issues After mRNA COVID Shots

A study from Saudi Arabia reported on by TrialSite News found that 27.11% of participants experienced heart complications following mRNA COVID-19 vaccination, with onset ranging from within one month to more than a year later.

By John-Michael Dumais

Miss a day, miss a lot.** Subscribe to The Defender's Top News of the Day. **It's free.

More than a quarter of participants in a study from Saudi Arabia reported cardiac complications after receiving mRNA COVID-19 vaccines, and many of them required hospitalization or intensive care.

The study, led by microbiologist and immunologist Muazzam M. Sheriff and colleagues at Ibn Sina National College for Medical Studies and King Faisal General Hospital, revealed that 27.11% of the surveyed individuals experienced heart-related issues post-COVID-19 vaccination.

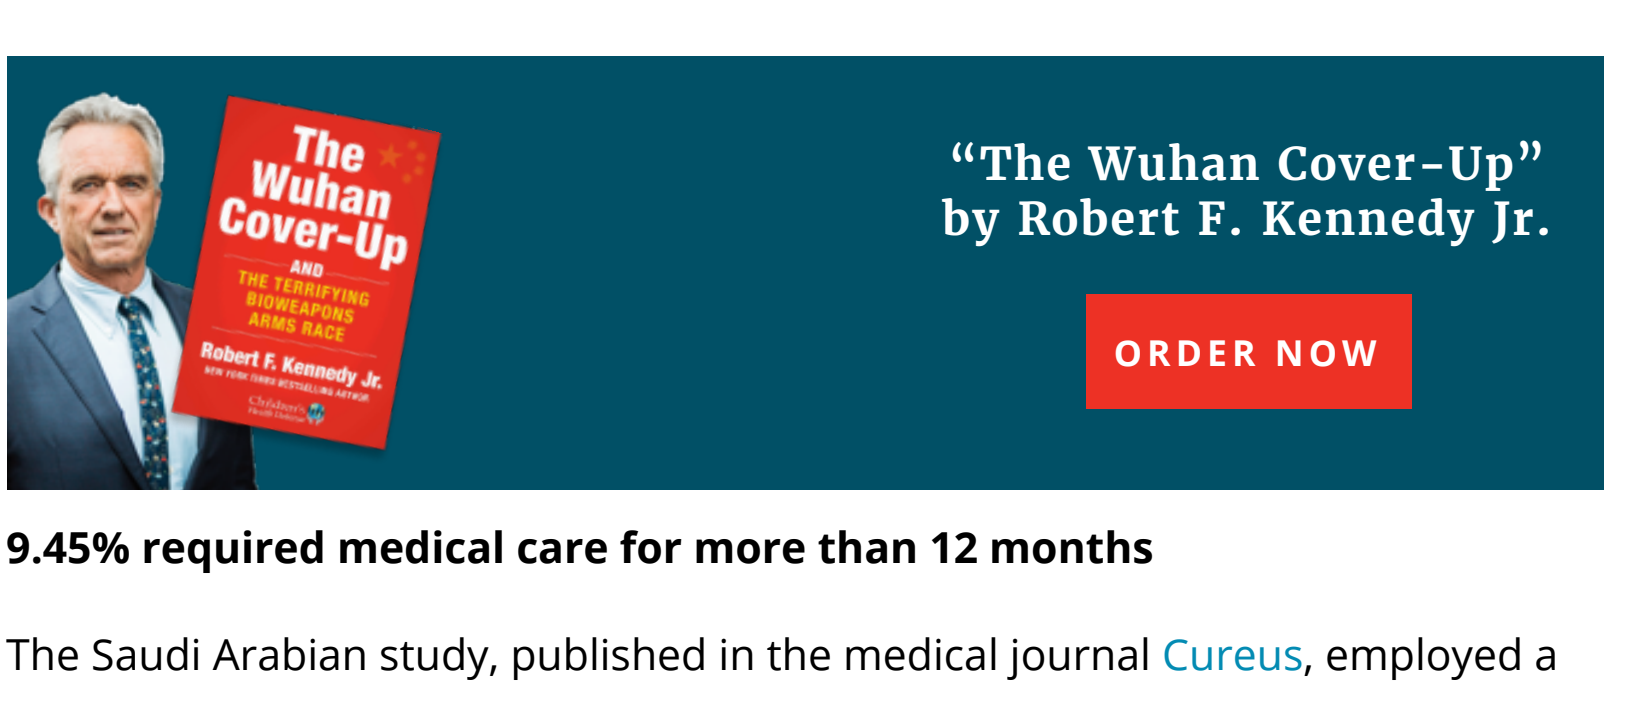
The onset of cardiac complications varied among participants, with 14.55% experiencing symptoms within one month of vaccination and others reporting issues up to 12 months or longer.

TrialSite News reported on the "bombshell Saudi Arabian study" on Wednesday. Founder, Daniel O'Connor, told The Defender that while the study has limitations and was designed to look for cardiac complications, "The rate of hospitalized cases was certainly notable, especially given the existing cardiac (myocarditis/pericarditis) signal associated with the vaccines."

Cardiologist and epidemiologist Dr. Peter A. McCullough said that in addition to the large number of cardiovascular symptoms warranting hospitalization, 15.8% landed in an intensive care unit (ICU).

"More than half of subjects indicated they were influenced by a healthcare professional or government agency to get vaccinated," McCullough told The Defender. "Never in recent times has there been such a cardiotoxic vaccine released on the public."

Highlighting the growing concern surrounding the potential long-term effects of COVID-19 vaccines on cardiovascular health, O'Connor said, "The surge in cardiac-related incidents in the news over the last year or two doesn't comfort one either."



"The Wuhan Cover-Up" by Robert F. Kennedy Jr.
ORDER NOW

9.45% required medical care for more than 12 months

The Saudi Arabian study, published in the medical journal Cureus, employed a cross-sectional design and recruited 804 participants (379 men, 425 women, ages 18 and above) who had received at least one dose of an mRNA COVID-19 vaccine (Pfizer-BioNTech, Moderna or both — 58 took a different brand).

Nearly 40% took just one shot.

Participants completed a culturally adapted questionnaire covering demographic details, vaccination history, health conditions and perceptions related to the vaccines.

The onset of cardiac complications for the 27.11% of affected participants varied, with 14.55% occurring within one month of vaccination, 6.97% between one and three months, and others experiencing issues up to 12 months or more after receiving the vaccine.

For the 15.8% admitted to critical care units and 11.44% to general hospital wards, inpatient treatment lasted from less than one day to several weeks, with 8.33% spending between four and seven days in the hospital.

Treatment for cardiac complications was ongoing for many participants, with 9.45% receiving medical care for more than 12 months and 7.11% undergoing continuous treatment at the time of the survey.

Sixty-five percent of subjects reported being "neutral," "somewhat not confident" or "not confident at all" on the safety of mRNA vaccines, while only about 20% said they believed their cardiac symptoms were "strongly related" or "somewhat related" to the vaccines.

The study also found high rates of pre-existing health conditions among the participants, including diabetes (48.26%), hypertension (56.72%), obesity (39.15%) and sedentary lifestyle-related issues (22.14%).

These comorbidities may have contributed to the increased risk of cardiac complications following mRNA vaccination, according to the study authors.

RFK Jr. and Brian Hooker's *New* Book: "Vax-Unvax"

'Seems like an awfully high rate'

"Despite the bias of recruitment strategy to find patients with cardiovascular side effects from mRNA, these are large percentages requiring hospital and or ICU care," McCullough said.

"More data are needed on these cases including diagnosis, treatment and outcomes such as recurrent hospitalization and death," he added.

The study's authors emphasized the need for further investigation into the specific risk factors and biological mechanisms that may contribute to developing cardiac complications following vaccination.

TrialSite News called it "a strong study in regard to methodology, relevance, and ethical considerations," noting the authors seemed to "downplay the magnitude of the response," despite what "seems like an awfully high rate" of cardiac complications.

Our daughter-in-law and her, maybe, daughter-in-law to be both ended up in emergency after their first COVID-19 shots. Previously, both very fit and health individuals. CAUSE UNKNOWN only scratches the surface of the damage done since the roll-out of the mRNA 'miracle vaccine'.

Obviously these vaccines affect both healthy and those with comorbidities. Even if they knew what caused it, they wouldn't reveal that to the patients for fear of being sued and or the wrath of G-d striking them. Anyone who suffered cardiac symptoms is at risk for the rest of their lives since scarred tissue doesn't go away.

Plus Sadly so much of the Covid Agenda Jewish? > 'COINCIDENCE' ?

CDC Director - Rochelle Walensky (Jewish), CDC Deputy Director - Anne Schuchat (Jewish), CDC Chief of Staff - Sherri Berger (Jewish), CDC Chief Medical Officer - Mitchell Wolfe (Jewish), CDC Director, Washington Office - Jeff Reczek (Jewish), Covid Czar - Jeff Zients (Jewish), Covid Senior Adviser - Andy Slavitt (Jewish), HHS Secretary - Xavier Becerra (Jewish), HHS Assistant Health Secretary - Rachel Levine (Jewish transgender), Head of Pfizer - Albert Bourla (Jewish), Pfizer Chief Scientist - Mikael Dolsten (Jewish), Mondern Chief Scientist - Tal Zaks (Jewish), Development of the Pfizer/BioNTech and Moderna COVID-19 mRNA vaccines - Drew Weissman (Jewish), Co-chair of the COVID-19 Advisory Board and Head of Operation Warp Speed - David Kessler (Jewish), BlackRock CEO - Larry Fink (Jewish), BlackRock President - Rob Kapito (Jewish), Vanguard CEO - Mortimer J. Buckley (Jewish), etc...

Also, a small cabal of Jewish Zionist billionaires owns big pharma (e.g. Regeneron, Pfizer, Moderna, Johnson & Johnson, AstraZeneca, Glaxo Smith Kline, Gilead Sciences, Novavax, Cansino Biologics, etc...)

Non Jewish: (Gates, Fauci, Ferguson, Farrar, Obama, Biden, Collins, Drosten, Schwab, Merkel, Scholz, von der Leyen, Trudeau, Ardern, "Ralph Baric"?, and "Peter Daszak?" etc etc) and many Jews profoundly opposed to the agenda.

I don't think it's a Jewish agenda as much as it is an elitist agenda. Keep in mind that the Jewish, like the Asians, tend to discipline their children to be the best and brightest from an early age and so many rise to extreme power in their careers. Of course, there's a difference between being ethical and corrupt and unfortunately, American capitalism is a buffet for the most indecent human beings on earth. As a Jewish woman, I never understood why the majority of Jews were not standing up against all the tyranny for the past 23 years. It should be blatantly obvious that what we have been witnessing is the birth of another Holocaust engineered by elites whether they are Jewish or Christian or agnostic or athiest. Naomi Wolf has been speaking out about this recently on Dr. Drew. Many 'religious' people, especially those in authority today are wolves in sheep's clothing that believe THEY are G-d. The US has been punishing people who are not Zionists for many years. Do you remember that horrible hurricane and flood in TX? I think it was Harvey. Anyway, a person had to sign a contract stating that they would not boycott Israeli goods in order to receive FEMA assistance. Hello???? What kind of BS is that?

I stay strong in my Faith Gary and I hope that everyone who is a sincere believer in G-d will unite as one and rise up against these monsters. No one else is going to save us.

Well, I think we've known for a while now that they didn't discriminate when they distributed this dangerous shot across the world. Nice to know..

I thought the Saudi's didn't trust the West. Yet, they told the Saudi's they needed "this vaccine", and they listened. Next time, when the WEF or WHO tells you "you need to take this vaccine" — RUN. Head for the hills. Trust your instincts and never trust these guys again.

We need to stop "Pussy-footing around with this issue". We All know the "Vaxxines" DO NOT WORK & AND CERTAINLY NOT EFFECTIVE, or Fit for Purpose....!
Basic Logic Denotes, "Cause and Effect". If we scrutinise the Effects, what do we see....? Athletes dropping down Dead, Heart Attacks in Healthy people. Veins clotted with Fibrous Substances. Body aches and Pains, Brain Fog, Miscarriages. Autism, and every malady in between, right up to, and including "Turbo Cancers"...some dead within a day of Diagnosis...?
What is the "Common Denomenator". ......"VAXXINES".
Untried and Untested , Death Shots, administered World Wide with 17 million injured or Dead........ So Far
Sudden Death Syndrome is now relevant in the Young and Healthy...?
These "Crimes against Humanity" must be punished....!
Mandates and Vaxxines must be scrapped...like yesterday...? Nuremberg 2 must be instituted ASAP. We need Justice, Dealt to WHO, WEF. FDA, CDC, NHIS, Fauci, Gates. Albert Bourla (Pfizer) and All Government and Health Ministers involved
In the Carnage of COVID and It's Cover Up.
Please Lord Hear Our Prayers🙏

It really doesn't matter how we break down the people tormented by mRNA injections. Know that ALL vaccines and mRNA substances are poisons and your body does not like them, need them or want them.

"Judge Forces CDC to Release Hidden COVID-19 Vaccine Injury Reports"
"The CDC doesn't want you to see this."

The U.S. Centers for Disease Control and Prevention (CDC) has released **previously hidden reports of facial paralysis and other adverse events following COVID-19 vaccination.**

The 780,000 reports were received shortly after the COVID-19 vaccines were rolled out, and show people experienced a wide range of post-vaccination problems, **including heart inflammation, miscarriages, and seizures.**

"**Loss of consciousness and seizure immediately following injection.** Went to ER by ambulance," one person reported.

"Diagnosed with **Bells Palsy today due to left-sided facial numbness and paralysis,**" another said.

The true subliminal brainwashing message here translates to: "Vaccines are safe and effective. Take more. There was a mishap with the mRNA but we fix that for next time. Trust us." Peter Mc Cullough does great work for the other side by bashing mRNA but avoiding any discussion about the cause or not cause of disease, the elephant in the room is the non-existing proof of a pathogenic virus.

The claims of this hospital whistleblower would make a great story for The Defender. This cath-lab manager corroborates the findings of embalmers of strange, "worm-looking" fibrous clots in living patients. He said he and his team are removing these clots "three to 10 times every week."

MAY 26, 2023 Pfizer Data attached 393 pages of Adverse Events ! Shame!!! Shame! Order of Magnitude of Adverse Events off the Charts

These were not provided to me by Pfizer but through a source through the EMA. I have no reason to doubt this document. Treat it as you wish. Assuming this source through the EMA is providing an accurate document and it sure appears as such, a lot of horrific conclusions should follow. Spend time looking at it. Let the weight of the conclusions sink in.

Myocarditis occurred in many healthy patients after vaccination. Why do these modified RNA vaccines have specific heart related adverse events? A hyper-stimulated immune response is too oversimplified and also describes a person's reaction to pollen.

I haven't read any recent literature on these symptoms so if anyone knows, please share.

Unfortunately i cannot find the story on their web site, but on 4/11/24 KTLA News at 10, reported that a study determined that the Covid shot does not cause heart problems in young men. In the report, they also claimed there was a conspiracy theory and misinformation that athletes were dropping on the field due to the Covid shot.

Weeks ago, KTLA ran a story blaming "a virus" for most of the heart problems that young men were experiencing. They even recorded a doctor saying, "a virus," though not specifically saying Covid. There is a demanded cover-up of the truth about harm the Covid shots are causing.

FACT: mRNA does not stay in the arm. The circulatory system picks up the spike protein and takes it directly to the heart, where it can cause clinical or sub-clinical myocarditis or pericarditis, or pass through to other organs in the body. To claim that the Covid shots do not cause heart issues, is fraudulent. Slides show spike protein and inflammation in heart tissue. Since Thursday, i have not seen other mention of this story, except a partial repeat on the KTLA Friday morning news. Have no confirming alternate source as of yet.

Personal update. Hours later came across a Zero Hedge article from Epoch Times: "CDC Study Doesn't 'Debunk' Link Between COVID-19 Vaccines & Sudden-Deaths" This was the study KTLA News was referring to. Specifically it was about sudden deaths, as opposed to heart issues in general.

Contradicting the study was this: "The authors failed to note that a much larger, peer-reviewed study from South Korea confirmed vaccine-induced myocarditis caused eight sudden cardiac deaths (SCDs), all among people younger than 45. Myocarditis is a form of heart inflammation."

Once again it comes down to the CDC study cherry picking data to form an incorrect conclusion, then the mainstream media picking up the false study conclusion and misinforming the public. From the story: NBC reporter Berkeley Lovelace Jr. also wrote that "there is no evidence that COVID vaccines cause fatal cardiac arrest or other deadly heart problems in teens and young adults, a CDC report finds."

Actually, there is plenty of evidence that Covid shots cause fatal cardiac arrest or other deadly heart problems. All cause mortality spiked 6 sigma in 2021. No other logical reason for that, other than the Covid shots. Excess deaths were happening in nursing homes shortly after they received the shots. The public is being lied to.

This is just the beginning. 5 to 10 years and you will see spiraling deaths caused by the "kill shot".

Only 20% of participants thought their heart condition was to do with the vaccines. Aren't people supposed to be waking up. Maybe it is the language barrier, but unlikely.

"27% of Saudis" is nonsense. The study comprises a sample of "804 participants ... collected through an online survey link distributed via social media through the groups ... and direct messages".

Which groups? Vaccine skeptic groups? Long vax victim groups? How were the users who were "direct messaged" chosen by the study designers?

It is impossible that this study did not involve a large dose of selection bias. This headline is good clickbait, but this should NOT pass the Defender's quality filter. Don't de-value the Defender with articles like this.
